

## **RAME STOVES ARE MADE IN FINLAND.**

### **Manufacturer's description;-**

Rame cook stoves are efficient, reliable and durable wood-burning stoves with a traditional, utilitarian design. They are quick and easy to use and do not waste wood. Their high quality is guaranteed by durable materials and years of experience.

Rame stove is a good stove for cooking and baking and is also efficient and economical heater. It can burn wood or any dry burnable household waste. The cook top and doors are cast iron. The two hot plates heat up quickly and evenly. The stove is lined with fire bricks and castable refractory.

The stove can be ordered in white or black color and a 13 liter water tank is also available.
